NATURAL STONE 3D PANELS

A blank canvas deserves to be painted. And one can bring it to life in a million creative ways. Empty walls of our homes are just that – blank canvases in our lives. Instead of putting up with dull, boring, run-of-the-mill paint jobs outlining our residences, why not bring it to life with natural stone tiles and 3D décor? Incorporating natural stones to build that look creates an aura of sophistication and elegance in the spaces that we live and breathe in.

Natural stone tile for flooring and walls ?

Natural slate has the ability to bring unique and powerful beauty to flooring installation, combining the functional durability of hard tile with the awe-inspiring essence of natural stone. Any natural stone flooring, including slate, limestone, sandstone etc. will add real estate value to your home.

Why Stone panel ?

Stone Panels are designing marvel and provide an ultimate decorating solution. This is a dire necessity for making your living room or office warm and welcoming. Aside from this you can hide wall flaws, make dull walls impressive and provide protection to the walls.

Paneling walls have been around for a long time, their charm only upped by stone tiles and 3D stone décor. This is a very handy option for charming up the interior as well as exterior walls of your private and business spaces with minimal effort. Tiles made from Natural stone has been used commonly in residential as well as commercial projects since many years now and since the past decade we have seen the growth of natural stone 3D panels/ stack stone panels. These 3D stone panels are manufactured in textured form with repetitive designs for creating a definite pattern of light and shadow with the use of proper illumination. The textured 3D wall panels are also used for in fireplace, focal points, exterior walls etc.

Our 3D stone panels are the go-to choice for most house owners, architects and designers for new constructions and renovations. In case you are also searching for creative options, please feel free to contact us and we would gladly assist you in any way we can.

Where can these be used ?

3D stone panels can be used just about anywhere from homes to offices; restaurants to resorts; clubs to casinos, hospitals and for any other personal or commercial settings for amplifying the beauty of the place in simple and elegant manner.

Range of products in 3D stone panels ?

3D stone panels are available in size of 24" x 6" (60cm x 15cm) and are available in 2 different categories:

- 1) Regular 3D stone panel with thickness of 8mm to 15mm
- 2) Thin 3D stone veneer panel with thickness of 2.5mm to 6mm.

Formats 2: 1. Peel & Stick, 2. Fibre mesh backing
