ABOUT US

Cedar Lam is a gorgeous collection of top-quality Decorative Laminates, brought to you by a highly skilled, professionally managed, and highly accredited company in India. Along with decorative high-pressure laminates, our factory is also equipped with laminates and door skins, to name a few. Keeping quality in mind, the factory is certified for ISI 2046: 1995, ISO 9001:2015, and ISO 14001:2015. Our products also meet the British European Standard BSEN 438 and the American NEMA LD3 Standards. We have also incorporated a 7-point quality control system to ensure that every single one of our laminate sheets goes through seven different quality control checkpoints during its production period. This ensures that only the highest-quality products are made available to our valuable customers. Our factory also has a state-of-the-art chemical plant that manufactures quality resins used in the production of laminates. Having a modern plant allows our R&D team to experiment with innovative materials to produce quality resins that will stand the test of time.

It's Splendid

It's Time to Renovate Your Interior

Our selection of indigenous stones will enrich your interior design.
