Over the course of 33 years, our organization has achieved remarkable success, surpassing the aspirations of many. Our unwavering commitment to our chosen path has set the tone for our journey, with everything else naturally falling into place. The ISO 9001:2015 certification stands as a testament to our core values of integrity, quality, and reliability.

Our laminates have garnered recognition through the prestigious CE marking award, underlining their exceptional design and efficiency. Moreover, we take immense pride in the honor of being designated as an export house by the Government of India, underscoring our significant contributions to international trade.

In every aspect of our operations, we consistently meet and exceed quality, safety, and environmental standards, reflecting our responsibility as a corporate citizen. This journey underscores our commitment to excellence and responsible business practices, ultimately leading to our impressive achievements.

DIGITAL LAMINATES ■■■

Stylam provides a versatile range of customization options for laminates, allowing users to edit and apply images to create unique designs, repeat a single image across multiple laminates for consistency, distribute images across laminates for a coordinated look, and explore a wide array of colors, designs, textures, and patterns, offering creative flexibility for various projects in interior design and architecture.

Stylam Fire Retardant Laminates are manufactured by impregnating papers with special of phenolic resin having imported fire retardant chemicals in its composition. This special resin formula ensures high resistance to the flame propagation. These Laminates ensures immediate full extinguish as soon as the flame source is removed thus eliminates the risk of toxic smoke. Stylam Fire Retardant Laminates have been certified conforming to Euroclass-Brequirement by Applus Laboratory, Spain. These laminates are designed for use requiring flame and smoke resistance in all modern day furniture and industrial applications.

APPLICATION

- Fire Prone Areas
- Kitchens
- Cabinets
- Interior Doors
- Wall Panels
- Airports
- Office Buildings
- Shopping Malls
- Multiplexes
- Hospitals
- Schools
- Apartments

FABRICATION

- **SAWING:** To avoid chipping, it is important that the saw blade teeth cut into the decorative face.
- **CIRCULAR SAWING:** To avoid vibration that causes chipping, make sure to provide support to the material near the point of blade contact.
- **ROUTING:** Electric or air powered carbide tip routers could be used for routing. Recommended router speed is 16000 to 22000 rpm. For special edge trimming very high speed routers should be used to achieve smooth-edge chip-free work.
- **EDGE FINISHING:** Belt sanders may be used to push the self-edge before the laminate top is applied.
- **ADHESIVES:** Special Post Form- ing Adhesive is recommended.
- **PROTECTIVE FILM:** The protective film should be removed as soon as the application is complete. Else exposure to strong lights may cause a pale residue and make it difficult to remove the protective film.

ELECTROSTATIC DISSIPATIVE LAMINATES

Electrostatic Dissipative laminates (ESD) diffuse static electricity to protect electronics and other static-sensitive devices from electric charges that could cause damage during manufacturing or assembly.

Application

- Static-Sensitive Electronic Components
- Manufacturing Workstations
- Hospitals
- Medical Facilities
- Technical Departments/
- Mobile Manufacturing Units
- BPO Offices
- Science Laboratories
- Pharma Labs
- Electronic Units

Features:

- Low electrical resistance
- Absolute charge drainage and zero voltage suppression
- ESD is post formable but will require a larger radius than standard laminate
- Resistant to most common solvents, hot solder and fluxes.
- ESD is guaranteed to maintain its static control properties.

SHEET SIZES

1220 x 2440 mm, 1300 x 3050 mm
Available in any color depending upon quantity.

PRODUCT TECHNICAL SHEET

STYLAM HIGH PRESSURE LAMINATES

High Pressure Laminates (HPL) as per EN 438-2 & 3 : 2016, are available in the standard HGS/VGS range.
